- 14-day safari is required  
Daily rates for GKS Leopard only  
(Vat Inclusive)  
One Hunting Client + One PH  
\$ 450

## CLOTHING AND EQUIPMENT:

Lightweight camouflage or khaki clothing and comfortable, **smooth soft-soled walking boots** are recommended during the hunt. For cold mornings and evenings, a sweater and windproof jacket are required. However, during the day, we suggest sunscreen, sunglasses and a hat for your comfort. When packing for your trip, **please keep in mind that laundry is done on a daily basis.** Also include a **flashlight and reading material.** Clients transferring to hunting area via chartered aircraft should pack minimally. Don't forget binoculars, camera and plenty of film.

### BOWS/EQUIPMENT (Recommended):

**Broadheads:** No mechanical heads.

**Arrows:** 500 grains for plains game. 850 min for Buffalo.

**We don't recommend lightweight arrows and no Hunter will be allowed to hunt with arrows weighing less than 450 grains.**

**Bows:**

Long – 65lbs min – Plains Game

Long – 90lbs min – Buffalo

Recurve – 60lbs min – Plains Game

Recurve – 85lbs min – Buffalo

Compound – 60lbs min – Plains Game

Compound – 80lbs min – Buffalo

\*NB: These weights have all been calculated on 27" Draw Lengths, if you draw less, then add 10lbs to the Bow. Our most successful arrows weigh over 600 grains on plains game.

### VIDEO CAMERAS / ELECTRICAL APPL.:

When bringing a video camera or any other electrical appliance, please pack convertors for the country you are visiting. In South Africa we use 3 pronged round hole plugs and some 2 pronged round hole plugs. Electric current is 220V.

### MEDICAL:

Greater KuduLand Safaris' lodges and 4 X 4 vehicles are equipped with basic first aid kits. Medical doctors are within easy reach in the towns near the reserves.

Although malaria has been controlled in recent years, it is recommended that anti-malaria precautions be commenced prior to departure. Please consult your personal physician.

**ENJOY YOUR STAY AND EXPERIENCE A UNIQUE HUNTING EXPERIENCE**
